

Simple Look With An Intelligent Feel

The workplace is designed for a mobile workforce providing comfortable and functional workspaces. Trio has a triangular profile and is designed to facilitate interactive and transitional work styles mixed with an aesthetically creative feel.

Trio's visual appeal and structural strength provides an updated look to the traditional bench style workstation. Featuring a floating look top, Trio creates a comfortable, welcoming and relaxed office environment.

Creative ideas

Who said that creativity can only be expressed in a cluttered and confused setting? Trio sets the scene for true creativity to thrive in an organised yet informal environment.

Complementary

Trio is compatible with all of our screens systems and accessories. If you're after a lighter look and feel pair with our Ozone screen or frameless acrylic. If structured solid look is required it can be paired with our Exe Series screens incorporating integrated ducting. Please turn over for specification guide.

specification guide
